What improvements would you suggest for color choices on the website?

23 responses

Stick to 2–3 main colors and use them consistently across pages.

Color selection

Blue and White

Contrast and Accessibility

Yes

It would be better if standard colors were used as suitable

Nothing

Blue

Good color choice

Good Color choices

Avoid Excessive Bright Colors

Red, usually it indicates Railway.

It's look like not in consistent way, applying a single theme would improve the look

Good

No choice

Make it more user friendly way

using tailwind css

Only three colors prefer. too much colors not attractive

Nothing this color is good

-

No

Limit the number of colors to avoid overwhelming the user, and test the color scheme on different devices to ensure it looks good on all platforms

I'd suggest using a consistent color palette with good contrast for readability

. Are the photos on the website relevant and high quality? What would you improve?

23 responses

Yes

No

It would be great if you can improve image quality

Photos are not suitable for website

No suggestions

Lighting & Composition

Already it's ok

Nothing

Yes,

No

Consider adding short videos

Not sure

Need improvement in quality

Good

Change the photos use alternative

using interactive functions

Using minima high quality images and minimal simple design

Yes,nothing

replacing low-resolution or blurry images, ensuring consistent lighting and composition, and using photos that accurately represent the information being conveyed

The photos are relevant and of good quality

Any other feedback you'd like to share to improve the Sri Lanka Railway website?

23 responses

-

No

Buttons and links should be easily visible and distinguishable.

Additionally improve seat reservation part also

No suggestions

no

Yes

It would be better if the article was on one side instead of two sides.

Nothing

Ok kept it

Nope

Online Booking System Enhancements.

Main problm is website is not responsive for mobile devices. It's seems like a desktop site. So hard yo use on mobile phones

It's better

Add more features for maps

yes using good routing methode.

Using new web technology to design website more accessible

Nothing

Good

Clearer Information on Schedules and Routes

Modern Design
